

Current Issues in Bioethics Lecture Series

**Co-Sponsored by the Center and Kansas City University of
Medicine and Biosciences**

KCU medical students gather eight times throughout the year for lectures from nationally and internationally recognized experts in bioethics topics – and you can join them virtually!

All programs are livestreamed at 11:00 am Central Time on YouTube and past lectures can be viewed there as well.

Mark your calendar for the next program on October 18, when the topic will be “Popular (Neuro)science and Other Political Schemes,” presented by Jeffrey Bishop, MD, PhD. Dr. Bishop is the Director of the Albert Gnaegi Center for Health Care Ethics, Tenet Chair of Health Care Ethics, at St. Louis University, and author of “The Anticipatory Corpse: Medicine, Power, and the Care of the Dying” (2011).
